# Quick Start Guide – ProLogic L01

Congratulations on the purchase of your new SECURAM ProLogic L01 Safe Lock! This Quick Start guide will help you set up your ProLogic L01 for use. **All programming must be completed with the safe door open. The safe lock system is powered by (1) 9V alkaline battery. Duracell or Energizer brands are recommended.**
The ProLogic L01 comes with (2) default codes:
ID00 or the Super Code is set to 111111
ID01 or the Manager Code is set to 123456
It is recommended to change both codes to unique codes immediately.
Step1: Change the Default Codes

Press the Menu/OK button. The LCD screen will display "Select Menu", press the ▼ button, until you see the menu selection "System Menu".
Press OK
Enter the default Super Code 111111; display will show "ID00 Verified" and then "Select Menu" will appear.
Press the ▼ button, until you see the menu selection "Change Code".

|	
12/17:13 8.4V **Change Code**	Press Menu/OK
12/17:13 8.4V **New Code**	Enter a 6 digit code
